## Coming In

You will come into PAS through the main doors into the reception area. The double doors straight ahead will take you into the activities room where the sessions are held.

There is space to park prams and hang up coats/bags on the pegs along the wall when you come in. You will also be asked to sign in and out when coming into a session. PAS staff will be available to support you with this. 😊

## Let's Have Fun!

Within our sessions, we have a range of different toys for young people and parents to interact with including building blocks, kitchen play, vehicle play, musical instruments, calming tents and bean bags.

We have some sensory play activities including sand and water play, so you might want to bring a spare set of clothes for your young person to get changed if they get wet/dirty.

## Snack Time/Facilities

Within our sessions, we will have snack time for young people. For the children we will offer some finger foods like fruit, cheese, pancakes, popcorn and a drink of water. For the adults there will be tea/coffee.

We know some people will have allergies, dietary requirements or have limited food they like to eat. Please tell us if there is anything we can provide for you or your child. We also understand that some children will prefer to eat on the go instead of sitting down and this is fine!

Through the back of the activities room, we have baby changing facilities and toilets.
